- ___ Water
- ___ Black Coffee
- ___ Green Tea
- ___ Sugar Free Iced Tea
- ___ **HACK* Use Senzu BCAA for your sweet tooth*
- ___ *Get Bragg's Nutritional Yeast! It's amazing for vegans*

...THAT's IT!

*As long as it has 0 Calories,
you can have it.*

SENZU SUPPLEMENTATION INSTRUCTIONS

1. Have fish oil with breakfast daily.
2. Glutamine, Creatine, and BCAA get mixed together **DURING WORKOUT** (we recommend 16oz of water or more here to stay hydrated).
3. One of your protein shakes MUST be immediately **POST WORKOUT** (we recommend only 8oz of water here in order to not dilute the shake).
4. Optimal fat loss will happen if you are able to get up, come to a workout without eating, drink your bcaa mix during workout, have your protein shake immediately after, and THEN get the rest of your meals going.

How To Adjust Foods For Vegan Meal Plan

DO NOT USE ANY OILS

*Vegetarian Protein sources are already extra high in fat and trace carbs
Therefore any fat we DO consume, we want to have some protein in as well
(let's hit two birds with one stone)*

CHOOSE YOUR SUBSTITUTIONS WISELY

*Make sure that PER SERVING your tempeh/tofu has over 15g> protein
Keep your fats lower - choose a tempeh/tofu that has LESS THAN 12-15g of Fat per serving*

COMPENSATE FOR YOUR ADDED FAT

****If you choose to have tempeh OR tofu as your protein source for a meal then follow these steps...****

- 1.) Identify if your tempeh/tofu has MORE THAN 12g of fat per serving. IF IT DOES GO TO STEP #2*
- 2.) Identify if that meal has a carb or fat portion to go with it. IF HAS FAT GO TO STEP #3*
- 3.) If it has a fat, than REMOVE the added fat from that meal!*

EXAMPLE

*Say I choose to have TOFU for my protein source for Meal #3 (Dinner)
My TOFU says it has 16g FAT per Serving
My meal is supposed to have an added fat
So I REMOVE the added fat, since the TOFU has compensated for it*

My meal now consists of...

6oz Tofu

1 Cup Mixed Veggies

Some 6 Week Challenge Approved Vegan Brand Products
